## HYDROSEEDING MATERIALS ESTIMATE REQUEST FORM

In order to provide a proper estimate we require the following information.

### Job Site Information

Name: \_\_\_\_\_  
 Address: \_\_\_\_\_  
 City/Town: \_\_\_\_\_, Ontario  
 Postal: \_\_\_\_\_  
 Contact: \_\_\_\_\_  
 Telephone: \_\_\_\_\_  
 email: \_\_\_\_\_

### Client Information (Only if Different from Job Site)

Name: \_\_\_\_\_  
 Address: \_\_\_\_\_  
 City/Town: \_\_\_\_\_,  
 Postal: \_\_\_\_\_  
 Contact: \_\_\_\_\_  
 Telephone: \_\_\_\_\_  
 email: \_\_\_\_\_

Size of Area	Length	Width	Total	Ft.2	
				M2	

If Ordering Materials by Area, Please Enter Size of Area, Put "X" Next to Measurement Type and Choose Only One Measurement Type

Slope/Grade Information			Determines the Hydroseeding Mulch Unit Coverage Area	
Grade	Slope	Degrees	<u>PLACE AN "X" NEXT TO YOUR CHOICE, CHOOSE ONLY ONE</u>	
Mild	≤ 5:1	≤ 11.3	Cellulose, CoverGrow™, Edge™EarthGuard®, Soil Guard®, Flex Guard®, Hydrostraw	
Moderate	≤ 4:1	≤ 14	Cellulose and Additives, CoverGrow™, Edge™EarthGuard® (FM), Soil Guard®, Flex Guard®, Hydrostraw	
Steep	≤ 3:1	≤ 18.4	Cellulose and Additives, CoverGrow™ and Additives, Edge™EarthGuard® (FM), Soil Guard®, Flex Guard®, Hydrostraw	
Severe	≤ 2:1	≤ 26	CoverGrow™ and Additives, Edge™EarthGuard® (FM), Soil Guard®, Flex Guard®, Hydrostraw	(Recommended)
Extreme	≤ 1:1	≤ 45	Edge™EarthGuard®, Soil Guard®, Flex Guard®, Hydrostraw	(Highly Recommended)
OPSS 804	N/A	N/A	Cellulose and Additives, CoverGrow™, Edge™EarthGuard® (FM), Soil Guard®, Flex Guard®, Hydrostraw	

Hydroseeding Mulch	Size	Area	Qty.	Mulch protects the seed, retains moisture, holds soil in place	Bulk
Cellulose	22kg			100% Recycled Paper Fibers (Little to no Erosion Control Without Additives)	40
Cellulose	18kg			100% Recycled Paper Fibers (Little to no Erosion Control Without Additives)	40
Profile® CoverGrow™	18kg			Extruded Recycled Wood and Paper Fibers with Tackifier to Improve Soil Bonding and Moisture Retention	48
Edge™EarthGuard® (FM)	22kg			Ease of Hydroseeding Application, with Erosion Blanket Protection (Can be Used in Jet Agitation Systems)	40
Soil Guard® (BFM)	22kg			Ease of Hydroseeding Application, with Erosion Blanket Protection (Cures 24 Hours)	36
Flex Guard® (FRM)	22kg			Ease of Hydroseeding Application, with Quick Erosion Blanket Protection (Cures 1-2 Hours)	36
Verdyol Biotic Earth™	22kg			Topsoil/Compost Alternative, for Where Existing Soils are less than Ideal	42
Proganics	22kg			Topsoil/Compost Alternative, for Where Existing Soils are less than Ideal	40
Proganics Duel	22kg			Topsoil/Compost Alternative with Tackifier to Improve Soil Bonding, for Where Existing Soils are less than Ideal	40
Hydrostraw Original	22kg			When Erosion Prevention is Needed on Difficult Sites, Slopes, and Adverse Soil Conditions (Cures 24 Hours)	40
Hydrostraw All in One	22kg			Hydrostraw Original Plus Fertilizers, Biological Inoculants and Soil Amendments (Cures 24 Hours)	40

Cover Crop Seed	Size	Area	Qty.	Protects perennial seed, provides erosion control & weed reduction	Bulk
Annual Rye	22kg			Fast germination rate and quick establishment	24
Perennial Rye	22kg			Cool season grass used in early spring and fall applications	24
Fall Rye	22kg			Light textured soils, subject to wind erosion. Ideal for snow trapping	24
Oats	22kg			Shaded soil areas grows on sandy to heavy clay soils with drainage	24
<b>Custom</b>	1kg			<b>Mixture and Percentages are Specified by Client</b>	25
Perennial Seed	Size	Area	Qty.	Influences quality of germination results, and/or intended usage	Bulk
Campus Green	25kg			Suitable performance over a wide range of conditions, normal maintenance	24
Valu Green	25kg			Suitable for overseeding over a wide range of conditions, normal maintenance	24
Perfection	25kg			Requires 70% sunlight, high maintenance, doesn't wear well	24
Ultra Shade	25kg			For areas with restricted/reduced sunlight of less than 50%	24
Ecoturf	25kg			Drought tolerate, with low maintenance, light green colour. Ideal Sandy Soils	24
Sports Turf	25kg			For high traffic areas, and athletic fields, wears well	24
MTO Roadside	25kg			For grass reclamation and erosion control along roadsides, contains clover	20
Blvd. (Salt Tolerant)	25kg			Mixture of turf grasses which have the highest natural toleranceto salty soils	24
Greenfields	25kg			For ground reclamation, wildlife cover "CONSERVATION" mixture	24
Butterfly-Humming Bird	1kg			Mix of grasses and pollinator attractors (Bees, Humming Birds, Butterflies, etc.)	25
Wild Flower	1kg			Mix of Continuous flowers, pollen and nectar throughout the growing season	25
Marsh and Wetland	1kg			Suitable for repairing natural or engineered wetlands. Ideal for purification lagoons	25
Wet Native	1kg			Designed for damp soils that do not dry out Designed for damp soils that do not dry out	25
Stormwater Retention	1kg			Mix used to stabilize soils in retention basins, provides visual texture and wildlife habitat	25
Riparian	1kg			A mix used to stabilize soi stabilize soils of river or stream banks, and reduce erosion	25
Pipeline Switchgrass	1kg			A mix used for strip mines, gas/electrical right of ways. Drought tolerant	25
Steep Slope	1kg			For stabilizing soils on slopes greater than 3:1, provides visual texture and wildlife habitat	25
Low Native	1kg			A mix used for TRCA, CLOCA, ORCA, KLCA, GCA projects	25
Tall Native	1kg			A winter hardy mix Recommended by Canadian Audubon Society for poorly drained sites	25
<b>Custom</b>	1kg			<b>Mixture and Percentages are Specified by Client</b>	25
Additives	Size	Area	Qty.	Additives have the potential to enhance the germination process	Bulk
Hydrogel	2.2kg			Increase available moisture, may reduce supplemental watering	8
Interlocking Fibers	2.2kg			Increases the tensile strength of mulch for better soil bonding	10
Liquid Tackifier	20lt			Increases the tensile strength of mulch for better soil bonding	24
Green Plus	2.2kg			Prompt source of nutrients immediately following germination	24
NeutraLime	18kg			Prompt source of nutrients immediately following germination	48
HydroMax	9.4Lt			Prompt source of nutrients immediately following germination	24
Granular Fertilizer	25kg			8-32-16 Prompt source of nutrients immediately following germination	40
Water Soluble Fertilizer	13kg			10-44-6 Prompt source of nutrients immediately following germination	24
