YOU CAN GET AN ESTIMATE BY EITHER QUANTITY REQUIRED OR FOR A SPECIFIC JOB SITE BASED ON SIZE

IF ESTIMATE IS FOR A SPECIFIC JOB BASED ON SIZE, PLACE "X" NEXT TO EACH ITEM

SQ/FT	M2	LENGTH	WIDTH	TOTAL AREA
Mild	Flat to 5H:1V	Steep	4H:1V to 3H:1V	Extreme
Moderate	5H:1V to 4H:1V	Severe	3H:1V to 2H:1V	OPSS 803 & 804 (Default)

IF ESTIMATE QUANTITY ENTER AMOUNT REQUIRED NEXT TO EACH ITEM

HYDROSEEDING MATERIALS				
Hydroseeding Mulch	Area	Qty.	Mulch holds the soil and seed in place, potentially reducing erosion	Skid
Cellulose 50lb			100% post consumer recycled fibers, green in colour. "No" Erosion Control	40
Cellulose 40lb			100% post consumer recycled fibers, green in colour. "No" Erosion Control	40
Profile® CoverGrow™			Granular recycled cellulose fibers and tackifier slopes < 3H:1V	48
Edge™ EarthGuard® (FM)			Granular recycled cellulose fibers and tackifier slopes > 3H:1V	40
Soil Guard® (BFM)			Wood/Paper/Synthetic Fibers and Tackifier for Slopes >1H:1V	40
Flex Guard® (FRM)			Wood/Paper/Synthetic Fibers and Tackifier for Slopes <1H:1V	40
Flexterra® HP-FGM®			Wood/Paper/Synthetic Fibers and Tackifier for Slopes <1H:1V	40
Verdyol Biotic Earth™			Biotic Soil Media "NO" Erosion Control with soil builders, and growth stimulants	42
Proganics			Biotic Soil Media "NO" Erosion Control with soil builders, and growth stimulants	40
Proganics Duel			Biotic Soil Media with soil builders, and growth stimulants <3H:2V Slopes	40
Other			Specified By Client	?

Nurse Crop Seed	Area	Qty.	Germinates quickly to protect slower germinating perennial seed	Skid
Annual Rye Grass			Fast germination rate and quick establishment	24
Perennial Rye Grass			Cool season grass used in early spring and fall applications	24
Fall Rye Grass			Light textured soils, subject to wind erosion. Ideal for snow trapping	24
Oats			Shaded soil areas grows on sandy to heavy clay soils with drainage	24
Other (Cover)			Mixture and Percentages are Specified by Client	24

Perennial Seed Mixture	Area	Qty.	TURFGRASS MIXTURES & BLENDS 25KG BAGS	Skid
Campus Green			Suitable performance over a wide range of conditions, normal maintenance	24
Campus Green Coated			Suitable for overseeding over a wide range of conditions, normal maintenance	24
Perfection			Requires 70% sunlight, high maintenance, doesn't wear well	24
Ultra Shade			For areas with restricted/reduced sunlight of less than 50%	24
Ecoturf			Drought tolerate, with low maintenance, light green colour. Ideal Sandy Soils	24
Sports Turf			For high traffic areas, and athletic fields, wears well	24
MTO Roadside			For grass reclamation and erosion control along roadsides, contains clover	24
Blvd. (Salt Tolerant)			Mixture of turf grasses which have the highest natural toleranceto salty soils	24
Greenfields			For ground reclamation, wildlife cover "CONSERVATION" mixture	24

ORDER BY SKIDS TO SAVE

Native Seed Mixture	Area	Qty.	MIXTURES & BLENDS 1KG BAG	Skid
Butterfly-Humming Bird			Mixture of pollinator attractors (Bees, Humming Birds, Butterflies, etc.)	N/A
Wild Flower			Mix of Continuous flowers, pollen and nectar throughout the growing season	N/A
Marsh and Wetland			For repairing natural or engineered wetlands. Ideal for purification lagoons	N/A
Wet Native			For damp soils that do not dry out	N/A
Stormwater Retention			For stabilizing soils in retention basins, with visual texture and wildlife habitat	N/A
Riparian			For stabilizing soils of river or stream banks, and reduce erosion	N/A
Pipeline Switchgrass			For strip mines, gas/electrical right of ways. Drought tolerant	N/A
Steep Slope			For stabilizing soils slopes $\geq 3:1$, with visual texture and wildlife habitat	N/A
Low Native			A mix used for TRCA, CLOCA, ORCA, KLCA, GCA projects	N/A
Tall Native			Recommended by Canadian Audubon Society for poorly drained sites	N/A
Other (Native)			Mixture and Percentages are Specified by Client	N/A

Hydroseed Additives	Area	Qty.	Exclusive blends of products to create ideal growing environment	Skid
Hydrogel 2.2kg bag			Increase available moisture, may reduce supplemental watering	Box 8
Interlocking Fibers 2.2kg			Increases the tensile strength of mulch for better soil bonding	Box 10
Liquid Tackifier 20lt.			Increases the tensile strength of mulch for better soil bonding	36
Silk Colour 9.46lt.			Concentrated green dye used to improve the visual appearance	48
Nutra Lime Dry 18kg			For adjusting soils with pH values less than 6.3,	50
Jump Start 9.46lt.			Enhances early stages of plant development from germination to viable maturity	48
Granular Fertilizer			25 kg 8-32-16 Prompt source of nutrients immediately following germination	40
Water Soluble Fertilizer			13 kg 10-44-6 Prompt source of nutrients immediately following germination	36
